

The Gospel Harvest Song

When I see my empty plate
And think about the food I ate
The taters and the gravy and the corn

Somebody must have grown that stuff
So I could always eat enough
To grow up big and strong since I was born

Thank the Lord - Just Thank The Lord - (*Thank the Lord for ev'ry seed*)
For all the fruit and every little seed - (*Ev'ry little little seed*)
And as we get the harvest in
Let's say a word of thanks to Him
For all the food that we will ever need - (*that we'll ever need*)

Somebody had to plant the rice
Right in the mud - not very nice
And then they had to tend it carefully

And when the seed was looking good
They picked it so my mommy could
Turn it into dinner just for me

Chorus

So just enjoy your vegetables
Cos everything's acceptable
The cabbage and the broccoli and sprouts

Just think how lucky we all are
Cause folks don't get so very far
Without good food - of that there is no doubt!

Chorus

See score for parts - year 6 to sing (*Thank the Lord for ev'ry seed*) year 4 to sing (*Ev'ry little little seed*) and year 5 to sing (*that we'll ever need*) . Year 3 hold to melody through the chorus.
